

Monster Park by Craig Sodaro

Encore Company presents Monster Park by Craig Sodaro October 26-28 at 7pm in the MHHS Gym. Tickets will be sold at the door—\$3 Students \$5 Adults. In this zany, fast-paced comedy, Professor Boris Conklin can now revitalize DNA samples from anyone (or anything!) in history, returning that person to life. Unfortunately, those who invested in Conklin's work want him to revitalize world-class monsters like Frankenstein, Dracula, the Mummy, and others to serve as attractions at his estate turned into an amusement park - Monster Park. Meanwhile, the Professor's down-and-out niece, Marlene, wants the estate for herself and plots to have her uncle hauled off to a sanitarium. She arrives the same weekend a test family is due to get a sneak preview of Monster Park. Between the wacky monsters, the obnoxious test family, and a psychiatrist who thinks everyone is crazy, chaos reigns! Don't miss this fun run around suitable for the whole family! Run time is about an hour and fifteen minutes—no intermission.
